

Helpful Guidelines for Artwork Submission:

Custom Sewn Flags

- Feel free to use the attached blank templates to brainstorm ideas you might have for your custom designed flag. When contacting a sales representative, be as specific as possible about your needs including budget, time frame, artwork and sizes. Also, be sure to indicate what shape your flag should be, for example arc, rectangle or teardrop.
- Let your sales representative know if you would like assistance in choosing the right colors to match your uniforms or show concept. Any in stock flag may be made custom by changing colors and/or fabrics. Any requests to change the design or color of our in stock flags will automatically make your order a Custom Flag (pricing and delivery times will be affected).
- Please be sure to reference our latest Flag Fabric Swatch Card for updated color selections. Swatch cards are available at no cost to you, just go to bandshoppe.com or ask your sales representative. Band Shoppe strives to maintain a standard in colors with all of our merchandise; however, it is scientifically impossible to achieve a perfect color from one dye lot to another. A slight shade or dye difference may be noticed between orders, different fabrics, and under different lighting. If a customer does not request or declines fabric swatches, Band Shoppe is not responsible for incorrect color matches.
- While you are free to utilize any flag dimensions you wish on a custom order, the following guidelines will help ensure your group maximizes the effectiveness of your flags on the field or floor:
 - 30" x 46" (5 foot pole)
 - 33" x 50" (5½ foot pole)
 - 36" x 54" (6 foot pole)
 - 42" x 60" (7 foot pole)

The number on the left is the header length (sleeve), and the number on the right measures the width of the flag to its furthest point out, including 3" for the width of the header. Your design will be scaled to these measurements, unless you specifically request something different.

- Custom flags will use a hook and loop fastener if not otherwise specified, you may request a tab fastener from your sales representative.
- When you sign and return a Sketch for Approval to your sales representative, you are stating that you have checked for accuracy. Please double check spelling, artwork, color information, and pattern shape/size/dimensions.

Digital Flags

- If you would like to incorporate your school or group's logo, mascot, or crest it is best to use pdf, eps or ai file formats when submitting artwork. Jpg, psd and tiff images may also be used, but we ask that you submit artwork as high resolution as possible. Any photographs should be 300 dpi and physically no smaller than 5" x 7" (8" x 10" or larger is preferred), in jpg, psd or tiff formats.
- Don't have artwork? www.istockphoto.com and www.shutterstock.com are great stock photography & illustration websites to find additional artwork, stock photos, and vector graphics to use in digital flags.
- If applicable, let us know the name of any specific font you would like to use.
- If you have a specific PMS (Pantone Matching System) color number you would like us to match, you may submit that along with your artwork. You can also use the attached Pantone Color Chart as a basic reference. This chart is a helpful tool, but it should be understood that your monitor settings may alter the look of certain colors. Every effort will be made to print as accurate as possible, but color variations occur depending on the type of printer and process used.

Ready to Order?

- Please remember, when you sign and return a Sketch for Approval to your sales representative, you are stating that you have checked for accuracy. Please double check all spelling, artwork, color information, and pattern shape/size/dimensions.
- **If you have any questions please contact our friendly sales staff at 800.457.3501 and someone will be happy to assist you!**
