

### CONCERT PODIUM ATTACHMENT FOR THE COMMAND CENTER PODIUM

**PLEASE NOTE:** There have been **NO** holes drilled in the Command Center Podium for the Concert Podium Attachment. Please use the following procedure when drilling the 1/4" holes in the Command Center Podium ladder rails:

1. Podium should be in collapsed position.
2. Insert ladder rails into U channels atop the Concert Podium Attachment. We recommend that the end of U channel be at least 2" back from the end of the Podium ladder rail on each side.
3. Mark hole locations on each side of each ladder rail using the holes that are already drilled into the Concert Podium Attachment.
4. Drill holes into the Podium ladder rails using an electric drill with a 1/4" bit.
5. Assemble attachment to ladder rails and secure with the pins on each U channel.
